WORK EXPERIENCE

Infinite Computer Solutions

- UI/UX Designer I

  Dec 2025 - Present

  - Designing and optimizing user experiences for a large-scale enterprise healthcare analytics platform (client: confidential), handling complex, data-heavy workflows.
  - Collaborating closely with product managers, developers, and stakeholders to align design solutions with business and user goals.
  - Contributing to scalable design systems and maintaining consistency across enterprise-level applications.

Aayulogic Pvt. Ltd.

- UI/UX Designer

  Mar 2025 - Sept 2025

  - Led the end-to-end redesign of core HRMS modules (Organization, Leave, Attendance, HRIS), significantly improving usability and workflow clarity.
  - Identified and resolved key UX bottlenecks across critical user journeys, enhancing efficiency for HR teams and employees.
  - Designed and launched high-impact features including:
    - Application Storage System for centralized employee data and media management
    - Employee Separation Module streamlining offboarding workflows
    - Tax Certificate & Reporting System enabling customizable documentation
  - Translated complex HR processes into intuitive, user-friendly interfaces through structured UX thinking.
  - Iterated designs based on stakeholder and user feedback, contributing to continuous product improvement.
  - Delivered a complete website redesign for Pangea Geoscience, aligning brand identity with a modern, responsive UX approach.

Truemark Technology

- UI/UX Designer

  Feb 2024 - Sep 2024

  - Spearheaded design and delivery of multiple product features including onboarding, authentication, leave approval systems, and employee lifecycle workflows.
  - Designed scalable solutions for Leave Balance and Invoice Work platforms, improving usability and feature accessibility.
  - Revamped multiple Shopify themes (Eyecart, CourseWhiz, Wosa, Medical, Electronix), enhancing visual consistency and user engagement.
  - Worked cross-functionally to translate business requirements into high-impact user experiences.

Associate UI/UX Designer

Jan 2023 - Feb 2024

- Designed and developed responsive interfaces using HTML/CSS, bridging the gap between design and development.
- Collaborated with cross-functional teams to gather requirements, conduct user research, and iterate on design solutions.
- Created wireframes, prototypes, and high-fidelity designs using Figma to effectively communicate product ideas.
- Contributed to multiple products including Polo Themes, All brainy, Contract Manager and Some parts of Invoice Work.
- Strengthened product usability through continuous iteration and feedback-driven improvements.

UI/UX Trainee

Oct 2022 - Jan 2023

- Built a strong foundation in user-centered design principles, UX processes, and design methodologies.
- Assisted in creating wireframes, prototypes, and visual designs for web interfaces.
- Contributed to website design and visual assets, including blog thumbnails and UI components.
- Collaborated with senior designers to understand real-world product design workflows.
